PikoButton

High Quality Ability Switches

PikoButton Ability Switches

PikoButton is a high quality and extremely durable ability switch. It is made of light weight yet durable materials to stand up to the constant use and abuse an ability switch must endure.

PikoButton is a single activation switch. **PikoDual** is a dual activation switch, meaning it can be used to perform two different actions.

PikoButton and PikoDual come in *two different sizes*:

Diameter: 30 mm / 1,18”
Diameter: 50 mm / 2”

Both PikoButton and PikoDual are available in *3 activation forces*:

Light: 75 g / 2,6 oz
Medium: 125 g / 4,4 oz
Stiff: 250 g / 8,8 oz

PikoButton and PikoDual come in *9 different colors*:

red, green, blue, yellow, orange, black, white, gold and silver.

Water Resistant PikoButton Switch

Water Resistant PikoButton can be used outside in the rain, to call a nurse when in shower etc.

Water Resistant PikoButton is available in three colors (black, blue, red) and with activation force of 125 g / 4,4 oz.

introducing:

FingerButton

FingerButton

FingerButton is a small single action switch that is placed around a finger with flexible Velcro tape. It is easy to use and extra sensitive. FingerButton30 is extremely suitable for people with little strength. FingerDual is equally sensitive but has two functions.

Both FingerButton and FingerDual are activated with the press of thumb.
