Products we Offer

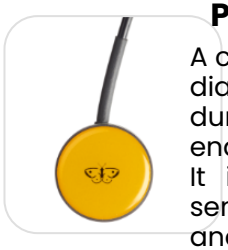
PikoButton 50

A robust switch with a 50 mm diameter, capable of withstanding loads up to 100 kg. It offers activation sensitivities of 75 g (sensitive) and 125 g (normal), catering to different user preferences.

Features:

- M4 mounting thread at the bottom
- Standard 1.5 m cable with a 3.5 mm plug connector
- Maximum load capacity: 12 VDC, 50 mA
- Available colors: red, blue, green, black, orange, white, gold, and silver

PikoButton 30



A compact switch with a 27 mm diameter, designed for durability and reliability, enduring pressures up to 100 kg. It is available with activation sensitivities of 75 g (sensitive) and 125 g (normal).

Features:

- M4 mounting thread at the bottom
- Standard 1.5 m cable with a 3.5 mm plug connector
- Maximum load capacity: 12 VDC, 50 mA
- Available colors: red, blue, green, black, gold, and silver

Small in size, big in impact – seamless control at your fingertips

Each PikoButton product is CE-marked as a medical device, ensuring compliance with stringent quality and safety standards. These switches are designed to enhance user independence and interaction with their environment, providing reliable solutions for various assistive needs.

Piko Button Assistive Switches

Durable, Accessible, Versatile, Reliable, Assistive.

Finger Button

The FingerButton is a compact, wearable switch designed for effortless activation. It wraps around the user's finger using an adjustable Velcro strap, making it ideal for individuals who require discreet and easily accessible control. With a light activation force, it enables smooth operation for assistive technology, communication devices, and environmental controls.

Features:

- Soft, adjustable Velcro strap for a secure fit
- Lightweight and comfortable for extended use
- Activation force: 75 g
- Standard 1.5 m cable with a 3.5 mm plug connector
- Maximum load capacity: 12 VDC, 50 mA
- Compact and discreet design for easy operation

Our Other Products

Finger Button Dual

A fabric dual switch designed to be wrapped around fingers using Velcro attachments, providing discreet and convenient access. It has an activation force of 75 g.

Features:

- Standard 1.5 m cable with a 3.5 mm stereo plug connector
- Maximum load capacity: 12 VDC, 50 mA
- Color: black

PikoDual 30

A compact dual-switch with two 27 mm buttons on a single base, ideal for assistive communication and accessibility. It offers activation force options of 75 g (sensitive) or 125 g (normal) for smooth operation.

Features:

- Dual 27 mm buttons for multiple functions
- Lightweight, durable design
- 1.5 m cable with a 3.5 mm stereo plug
- Activation force: 75 g or 125 g
- Max load: 12 VDC, 50 mA
- Available in various colors

PikoDual 50

A dual-switch configuration featuring two 50 mm diameter buttons mounted on a single base, each with activation sensitivities of 75 g (sensitive) and 125 g (normal). This design facilitates multiple functions from a single device.

Features:

- Standard 1.5 m cable with a 3.5 mm stereo plug connector
- Maximum load capacity: 12 VDC, 50 mA
- Available colors: red, green, yellow, blue, orange, white, black, gold, and silver

pikobutton water resistant 50

A 50 mm diameter switch featuring IP67 water resistance, ensuring functionality in moist environments. It maintains the robust design of the standard PikoButton 50, with an activation sensitivity of 125 g.

Features:

- SM4 mounting thread at the bottom
- Standard 1.5 m cable with a 3.5 mm plug connector
- Maximum load capacity: 12 VDC, 50 mA
- Available colors: red, blue, green, and black

pikobutton water resistant 30

A smaller, 27 mm diameter switch with IP68 water resistance, suitable for environments where moisture is a concern. It offers an activation sensitivity of 125 g.

Features:

- M4 mounting thread at the bottom
- Standard 1.5 m cable with a 3.5 mm plug connector
- Maximum load capacity: 12 VDC, 50 mA
- Available colors: red, blue, green, and black

SW5R PICK BUTTON

A five-function durable switch featuring five 10 mm buttons on a 50 mm round base, ideal for individuals with limited hand mobility.

Features:

- Five 10 mm buttons on a 50 mm base
- Compact and durable design for long-term use
- Easy activation for users with limited mobility
